3) **2018 Audit Report - PowerPoint Presentation by Moss Adams**
Mark Sabo, CFO, introduces Mark Siadal, Moss Adams Auditor. Mark begins by explain who he is and his audit experience, then continues to state that when an auditor is reviewing the financial records for a business...
that their goal is to find a clean and unmodified opinion. Quil Ceda Village received a clean audit. Moss Adams was onsite the week of May 13, 2019 and the QCV staff was friendly, courteous, and provided records to us right away. All financial records were reviewed, revenue, operating expenses, and transfers, and found no deficiencies. No modified records were found and no corrections were required. When we state that no modified records were found, that means we did not see self-corrected mistakes in the financial records. All requested records were unmodified and accurate. The complete reports states there are no material weaknesses and no significant deficiencies.

Cigarette sales are down, nationwide cigarette sales have been trending lower and lower each year. Restaurant and Hotel Occupancy are steady. On the Project side the Liquor Store project is nearly complete. There is still a matter of the relocation of the point of sales systems.
